

Re: Docket# 98N-1038, "Irradiation in the Production, Processing,
and Handling of Food."

I want the FDA to continue prominent labeling of food that has
been treated with irradiation. The label should be conspicuous and
include the logo for irradiation.

Your Signature: 

Additional comments: It is important to understand how
much technology is being used. That is,
irradiation is not necessary, but just "improves" quality.
Let me know if it is done. Thanks,

98N-1038
